Professional Summary

Reliable and detail-oriented professional with experience in risk operations, customer service, and administrative support. Skilled in loan processing, compliance handling, and data verification. Proficient in Microsoft Excel and familiar with Power BI for basic data visualization and reporting. Known for strong follow-up skills, accuracy, and maintaining regulatory standards in fast-paced work environments.

Work Experience

NJ Capital Pvt. Ltd

Sr. Executive, Product Development | *April 2026*

- Manage day-to-day operations of NJ EMI Store, an online consumer-product financing platform.
- Coordinate with customers regarding product enquiries, Loan Kyc process, and follow-ups received through direct calls.
- Manage product listings and inventory updates on the NJ EMI Store website through the Shopaccino backend, ensuring accurate product availability and information.
- Process and accept customer orders through Shopaccino for loan processing and order fulfilment.
- Coordinate with vendors and internal teams for product availability, order dispatch, shipment tracking, delivery updates, and resolution of post-loan-disbursement customer and order-related queries.
- Prepare and analyse monthly and quarterly MIS reports covering customer segments, repeat customers, promotional activities, demographics, product categories, and top-performing brands to identify key business trends and support product development initiatives.

Sr. Executive, Operations | *Jan 2024 – March 2026*

- Monitor the FIN LOAN dashboard to identify flagged issues such as bank or mandate discrepancies, PMLA, and PEP alerts, and ensure timely resolution.
- Conduct Video KYC and manage follow-ups on pending or incomplete sessions to ensure timely loan disbursement.
- Collaborate with the Customer Care and Support Team to resolve client queries related to loan applications and KYC issues.
- Analyze loan and pledge reports to identify closed loans with zero outstanding balance and pledged collateral, then generate unpledged request files accordingly.
- Perform monthly reconciliation of pledge, unpledged, and invocation charges using CAMS and KFIN accounting reports.
- Conduct transaction monitoring by analyzing customer bank statements to identify suspicious activity and ensure compliance with AML guidelines.
- Maintain and update MIS reports for records of completed Video KYC.

Computer Operator

Surat Municipal Corporation | *Feb 2022 – Jan 2024*

- Handled day-to-day billing operations at the Property Tax billing counter and Maintained cash records and ensured accurate daily reconciliation.
- Oversaw the execution of property tax bill distribution. Coordinated with field staff and ensured timely and accurate delivery of bills to citizens.
- Monitored distribution status and addressed exceptions (e.g., undelivered or returned bills). Prepared daily, weekly, and monthly MIS reports related to bill distribution.
- Generated departmental reports for the Street Light Department, maintenance activities performed by them.

Business Analyst

Veeraraghavan & Co., Surat | *Jan 2021 – Jun 2021*

- Conduct in-person visits to customers' residences or business premises for document verification.
- Perform personal discussion (PD) with borrowers to assess repayment capacity and intent.
- Verify business operations, inventory, and premises during field investigation for Loan.
- Prepare verification summaries and red flag reports based on findings from field visits and document analysis.
